

Technical Data

Model Number: DMR 008

Thickness and Edge Length: Material thickness 1.50 mm

Size: Highest point 1.4 mm

Weight: 46gr / piece - 2.8kg/m²

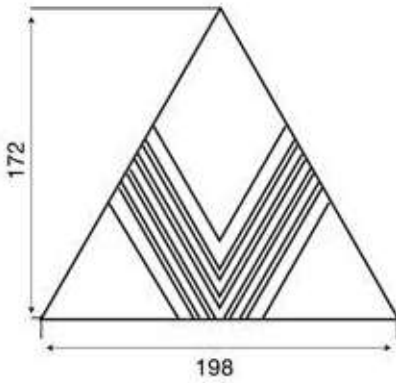

Color: Any color from the Ral color chart can be applied

Surface Option: Matte or Glossy

Material: Reinforced, light and hard copolymer

Applicability: Indoor and outdoor

All measurement units are in mm

General Performance Data

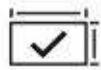

Flammability
UL94 / V-0
(Optional)

Surface Quality
A1

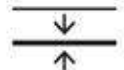

Flexural Strength
ISO178 / 63MPa

Size Accuracy
+/-0,05%

Temperature
Resistance
-40/+85 °C

Thickness
Accuracy
+/-0,005%
